

Recreational League Return to Play Policies

Game Day Safety Policies:

- All people must wear a face covering when inside a permitted field, unless under the age of four
- Players are welcome to wear a mask while playing, but it is not required
- Coaches can remove mask while coaching, when physically distant from others
- Participants and coaches should avoid touching face and spitting
- All participants should sanitize hands before and after each game
- No formal hand contact between teams is allowed (no post game high-fives, team cheers, etc)
- No captain's meeting with the referee. Replaced with physically distant referee team reminders
- No post game snacks or team gatherings — please leave field immediately after game to allow for next spectators to arrive
- Spectators must remain in designated areas inside the permitted field. Spectator and team areas will be marked and socially distanced on each field.
- Before any Gunston program (practice, game, event, etc) all attendees must check temperature at home. Any temperature above 100.4 F, which is considered a fever, may not attend.

Gunston Adjustments:

- Gunston will provide times when families should arrive and enter the field
- Gunston will schedule a window of additional time between games to limit groups of people interacting and crossing paths
- There will be multiple points of entry at field when possible

- Gunston will increase distance between fields where appropriate
- Teams will sit at midfield on opposite side of the field
- Site managers at field will provide reminders to players and supporters as needed
- Site managers will stop games and/or remove anyone not following the safety policies
